3. Notification center: To see your recent calls, messages and alerts, tap the notification button.
4. Microphone: To talk to Google, tap the microphone.

I13. Apple CarPlay ™
I13.1. About Apple CarPlay ™

CarPlay puts key iPhone apps - the ones you want to use while driving - on your vehicle's built-in display. With CarPlay, you can get turn-by-turn directions, make phone calls, exchange text messages, listen to music, and more. Apple CarPlay is available on select automobiles navigation systems, and works with iPhone 5 or higher with iOS 7.1 or higher

You can operate CarPlay using your vehicle's built-in controls - a touchscreen, a rotary knob controller, or both. To learn how to operate your display, refer to the user guide that came with your vehicle. Or just use Siri voice control to tell CarPlay what you want. In fact, Siri often steps in automatically to help you, depending on the app you're using

For more information & troubleshooting, refer to the iPhone manual or visit the Apple website

What you need
An iPhone5 or higher
A car that's compatible with iPhone
A Genuine USB cable from Apple

Before starting Apple CarPlay
